McAllister's All-healing Ointment McAllister's All-healing Ointment
It is generally conceded that this Medicine has effected
more cures than any seven remedies ever presented to
the public. It has probably cured more cases of Piles,
Rheumatism, ore Eyes, Burns, Tumors, Salt Rheum,
Quincy, Sore Throat, &c., than all the popular medicines
in use: and I am positive in Liver Complaint, Scrofula,
Asthma, Coughs, Consumptions, Spinal Diseases
Worms, Broken or Sore Breasts, Headache and the

PRESIDENTIAL ELECTION-BALTIMORE CONVEN on .- Men of reflection, who are informed fulupon the present aspect of things, must see that there is to be an issue at the Baltimore onvention, urged with more or less zeal and rtinacity. There are now a large party or

pertinacity. There are now a large party of faction, who claim to be democrats, in the northern States, who are, in fact, hostile to the party and its purposes.

Their headquarters is the State of New York. Prominent men amongst them are talented and unscrupulous, not willing to play any subordinate part. They were, at the last Baltimore convention, full of plausible professions, ready to engage in the contest, provided their choice of men was acceded to. The convention, to avoid a difficulty, admitted two sets of delegates from the Empire State; but these disorganizers were not satisfied with that concession. Better far if the convention had excluded altogether such men from the body.

Better far if the convention had excluded altogether such men from the body. gether such men from the body.

They went home, held a convention of their own, constructed a platform to suit a faction, and defeated the democratic nominee. These men are just as hostile to the democratic party now as they were then. They are still as nerinacious as ever of their anti-slavery creed. ic party, to make an issue between North and South, which can end only in a final separation of these States. They have but little strength our people of the within our borders, the late vote berents and sympathizers in many. They are far more hostile to the national democratic party than the whigs are. Indeed national men, who love the constitution and the union of these States, have a common interest in defeating their purpose and design. This same faction will have its delegates at Baltimore, determined, if possible, to control the action of the conversion of the

Whilst consistency, and honor, and patriot ism require this course of the democratic party, policy dictates it. Justice to the democrats North requires it, and the South will ask noth ing less.

Our opponents made an experiment of uniting northern fanaticism and southern men. They had astonishing success. But they were only after the spoils, and had neither measures nor principles. The following resolutions, by a demoretic meeting in Vanderburgh county, Indiana, ere of the right sort. The writer understands the present aspect of things:

At a meeting of the democratic party of Vanderburgh county, held at the court house in Evansville, on Saturday, the 20th day of De cember, 1851, in pursuance of previous notice the Hon Ira P, Grainger was called to the chair, and J. W. Hughes appointed Secretary. On motion, the following committee was ap pointed to draft resolutions: Messrs. Law, Stin on, Todd, Drew, and Garrett. Mr. Law, from the committee, reported the

llowing resolutions, which were unanimously adopted: lved, That there never has been a time in the h

Resolved. That there never has been a time in the his tory of our government, when the movements of the democratic party were of so much importance, and so oreguant with results, as at the present. The proud struggle of our Republic in its earliest iniancy—its first efforts for freedom—its first efforts for constitutional liberty—its second struggle for freedom—the gloomy days of its commercial and financial history, are all fresh in our memory, and we remember, too, with pride and pleasure, that the great principles of democracy have guided her safely through all her trasls.

Resolved, That at the present period of our history new duties and new responsibilities are to be assumed by us; duties and new responsibilities growing out of the progressive march of republican principles, and their onward movement in this, the nineteenth century, wherever civilized man has an existence. That we need in such an emergency, men and statesmen, who are not only familiar with the workings of our own government, and of known ability to guide our national councils, but men who are impressed with the spirit of the age, and who have marked and understood the struggle going on elsewhere between despotism on one side, and freedom on the other, and whose sympathics are enlisted on the side of freedom, wherever the struggle is going on. Resolver; That for more than half a century the con-

one portion of the Republic and another, that Indiaua has stood erect, unbiassed, impartial, and conservative—respectful of the rights of all, and willing at all times to carry out, in good faith, the compromise effected by our fathers. She has adhered to them under all circumstances and at all times. That knowing, as citizens of our common country, "no north, no south, no east, no west," but recognising only the common bond, which should connect, by the strongest ties, that unity of brotherhood which makes us one people, we will, so far as we can, respect the rights of all, and by no act of ours give reason to believe that our feelings and affections towards the other States of the confederacy have been alrenated; that as "a free, sovereign, and independent itenated; that as "a free, sovereign, and independer tate," we have no desire or wish to interfere with the peculiar institutions" of others—and that while we ave not, nor desire to have, either "clavery or invoin our State, by a majority of upwards of ninety thou-sand of the popular vote, is the best guaranty that while we have no desire to interfere with the rights of our sister States, we feel disposed to protect our own. Revolved, That while we freely admit the right of every

convention. Shall it be allowed? The question cannot be blinked out of sight, and we had as well look it in the face.

Some may be disposed, for the sake of success, to make no issue with free-soilers, to make a nomination to suit them, or an equivocal platform that can be used for sectional purposes by these traiters to the demonstration at the demonstration as the candidate of the demonstration and solution of the convention of the right of any observance, and deep neutron of their cannot be believed and deep neutron of the convention. The principle of "mon-intervention" one which should be held sacred by all nations, in every contest between a government, by compact or other.

That under his administration the affairs of our State have been well and wisely administered, and they are hereby instructed, to the convention to be held at Indianapolis, on the 24th of February next, be, and they are hereby instructed, to the convention of the convention.

Ma. John D. Park—Dear Sir: It is with unutterable eclings of gratitude that I am able, through the Divine Providence of God, and by the wonder working agency of that excellent medicine, "Guysott's Yellow Dock and Sarsaparilla," to give you a few symptoms of my almost propeless case.

sarsaparilla," to give you a few symptoms of my almost hopeless case. In the winter of 1850, I was attacked with a severe pain, which was gradually extending through the whole right side and leg; at the same time, a total prostration of my physical system; also, my leg had shrunk to about two thirds of its common size. I procured the attendance of a skilful practitioner, who pronounced my disease one of the worst forms of liver complaint. He said my case was one not easily handled, but prescribed for me. I remaited under his treatment until I was satisfied be could not help me. I then procured of your agent at this place, W. A. Beers, two bottles of Guysott's Yellow Dock and Sarsaparilla, from which I received a vast amount of benefit. After having taken four bottles more I was able to pursue my business without any inconvenience, and have been since that time a well man, while but a short time since I was confined to my bed three fourths of the time; and I cannot ascribe the return of my health to any other cause than by the agency of that truly valuable medicine, Gnysott's Yellow Dock and Sarsaparilla.

DR. JOHN D. PARK - Dear Sir; "Dr. Guysott's Extract of Sarsaparilla." This medicine has been preser DR. JOHN D. PARK—Dear Sir: "Dr. Guysott's Extract of Sarsaparilla." This medicine has been prescribed by me for the last three years, with good effect, in general debility, Liver Complaint, Jaundice, Dyspepsia, Chronic and Nervous Diseases. In all Female Complaints it certainly is unequaled.

In the use of this medicine the patient constantly gains strength and visor, a fact worthy of great consideration. It is pleasant to the taste and smell, and can be used by persons with the most delicate stomachs, with safety under any circumstances. I am speaking from experience, and to the afflicted I advise its use.

SIVE MERCHANT IN NEENAH, WIS.

MR. JOHN D. PABER—Bear Sir: 1 am out of your "Wistar's Balsam of Wild Cherry," and "Dr. Guysott's Extract of Yellow Dock and Sarsaparilla." Please forward a supply immediately.

Your Balsam of Wild Cherry worked to a charm here; not a bottle failed of afford ng immediate relief, and in every instance but one (an old gentleman 71 years of age) it cured, and the Yellow Dock has done equally well. took three bottless myself last fail, and enjoyed perfect health last winter, for the first winter for eleven years, being troubled with a severe eruption of the skin which laid me up from two weeks to four months every winter and spring until last winter.

Henry E. Jones, a brother merchant and a particular friend of mine, took two bottles of the Yellow Dock for a Scroulous Eruption; which has worked an entire cure.

BALSAM OF WILD CHERRY The best Remedy ever known to Man for

Coughs, Asthma, Colds, Croup, Bronchits, Influenza, Bleeding of the Lungs, Difficulty of Breathing, Liver Affections, Pain or Weakness of the Breast or Side, first stages of Consumption, &c., &c.

In short, this Balsam is peculiarly adapted to every disease of the Lungs and Liver which is produced in L disease of the Lungs and Liver which is produced in our ever-varying limate.

Wild Cherry has tong been known to possess important medicinal properties. This fact is fan illar to every natron in our land, and physicians often prescribe it in different forms for a variety of compaints. Tar, also, has been equally noted for its virtues; and some physicians, whose names are familiar to the whole country, have gone so far as to declare that even CONSUMPTION could be cured by that alone. In other hands, pain it was pearly applied to the product of the country of the cured by that alone. I then tried Dr. Rogers' Liverwort and Tar; but this I then tried Dr. Rogers' Liverwort and Tar; but this aggravated her cough, and gave her symptoms of a still more madignant character. I was now most seriously alarmed, and it was with trembling fear that I from day to day saw the progress of that insatiable disease, Consumption. I really despaired of my daughter's recovery. But I providentially saw the certificate of Jonathan Coulson, whose daughter, Sarah Jane, was cured of Consumption by Wistar's Balsam of Wild Cherry. This created a faint hope that it might help my daughter, and I immediately commenced using it, and it almost instantly gave relief; her health was improved from the first bottle, and by the use of two bottles of Wistar's Balsam of Wild Cherry she was restored to perfect health, and she is not now at all predisposed to a cough.

I will say to all that are afflicted with any disease tending to Consumption, do not despair; for Dr. Wistar's

M. FIFE'S Patent Oblique Gold Pen.—The excelience of a well-made Quill Pen is acknowledged by all, but iewe are aware that the cause is that it bends laterally at the point, in making strong shades, and becomes an Oblique Pen.

Teachers of penmanship always direct the pupil to hold the pen so that the top will point over the right shoulder, for by so doing the split and shades are brought more in a line; but still, 'when held well,' there is from 15 to 35 degrees difference between the split of the pen and the downward marks. W. Fife's Oblique Pen obviates this difficulty. It curves or deflects from 15 to 35 degrees to the right at the point where it comes in contact with the paper, and it is as perfect an instrument for sloped writing as the straight pen is for back hand.

Design for the Great Exhibition of the industry of all nations at New York, has been on view this week in London. The plan is upon a similar principle to that of the crystal palace in Hyde Park, and the materials consist of glass, iron, and plate. The length of the building is intended to be six hunted feet, and the breadth two hundred feet.

There are two entrances, one at each end; and the construction of the transept entrance to the exhibition in Hyde Park. The roof is to be of slate, in order to resist the weight of snow to exhibition in Hyde Park. Circular of Hon. Joseph Lane, Delegate from LATEST STREAK Oregon, in Reference to the Settlement, Soil, and Climate of Oregon Territory.

The great number of letters I am constantly receiving, making inquiries in reference to the Territory of Oregon, making inquiries in reference to the Territory of Oregon, has induced me to embody in the form of a circular, such information as is usually desired, that I may thus be enabled to formish it more promptly and more is detail than a due attention to my public duties would allow me, were I to endeaver to give a written answer to each those this course will not be considered discourteous to my correspondents, for, in pursuing it, I will more effectually and satisfactority serve them; which is my blief desire.

ctually and satisfactorily serve them, which is my thief desire.

O egon is a mountainous country, interspersed with any extensive, rich, and beautifut valleys, watered by ool, pure streams, having their sources among its snow-ad mountains. It is exceedingly healthy—no country more so. The atmosphere is pure, and the climate slightful, especially during the summer. From April November there is but little rain, but a cool, gentle eeze blows almost perpetually from the North. The inters are rainy, but mid, for, during this season, warm ath winds coastantly prevail.

winters are rainy, but miid, for, during this season, warm South winds constantly prevail.

The country is well watered, and the soil very fertile, and weil adapted to the growth of all the small grains, grasses, potatoes, and other culinary vegetables—all yielding most abundantly, except Indian corn, which is not regarded as a successful crop. Many of the hills and mountains are covered with inexhaustible forests of finetimber, generally fir and codar. Those forests frequently skirt the valleys and streams.

As is well known, the Columbia is the only great river on the Pacific slope, and stretches from the Sacoast to the Rocky Mountains. From its mouth to the Cascades, a distance of about one hundred and fifty miles, there is an uninterrupted navigation for vessels of the largest size. The Williamette empties into the Columbia about interty miles from its mouth. This river is also navigable for the largest vessels to Portland, fifteen miles from its mouth, and many have ascended as high as Milwaukie, seven miles further.

At the risk of some little repetition it may not be eemed improper or unaccessary to give a more detailed and minute description of the valley of this and some of ac other streams of Oregon. The Williamente valley is bounded by the Coast mountins on the west, and the Cascade range on the east. The soil is excellent, and is not surpassed, if equalled, by my portion of the continent in its adaptation to the rowth of wheat, rye, and oats. Potatoes are produced a great abundance, and are of a superior quality: while growth of wheat, rye, and oats. Potatoes are produced in great abundance, and are of a superior quality; while wheat is invariably a certain crop subject to none of the diseases and uncertainties peculiar to it in the States; it matures slowly, hence the grain is always full and plump, and the straw unusually solid and clastic, and not subject to fail. In consequence of the cool, dry summers, and the entire absence of rain during the harvest season, the armer is enabled to gather in his grain without waste. This valley is about one hundred and fifty miles in ength, and thirty five in breadth, and is sparsely settled broughout its whole extent. Many fine locations are retunocorpied which will richly repay the labor of the hrifty husbandman. Natural meadows, as yet untouched by the hand of cultivation, afford abundant and rich basturage for immense herds of cattle. The valley is mostly prairie, skirted by beautiful groves of limber, while through its centre runs the Williamette river.

The Umpqua valley is distant from the Williamette bout twelve miles, and is separated from it by the Calabout twelve miles, and is separated from it by the Calabout monatain. It is about ninety miles in length, and

At present, emigrants are compelled to take the road a rossine Cascade Mountains, south of the Columbia, to Oregon City, from whence it is as far, by a road almost impassable, to Puget Sound, as it would be from Walla-Walla by the road suggested.

There are, also, east of the Cascade range, north and south of the Columbia, now in possession of the Indians, large districts of country finely adapted to grazing, with occasional good tracts of farming land, which will, no doubl, ere long be occupied by the whites.

doubt, ere long be occupied by the whites.

Oregon City is situated at the Great Falls of the Williamette. Steamboats run daily from this place to Portland, and those of a small class also run daily up the river, above the Falls, from thirty to fifty miles, and in some instances, recently, as I am informed, they have gone up one hundred and fifty miles. A small judicious expenditure would render the river constantly navigable for such boats that distance.

The population of Oregon, including the immigration of the last season, is probably twenty thousand. The immigration is rapily increasing, owing not only to the natural advantages of the country, but to the liberal pruvisions made for actual settlers by a late law of Congress. By that law liberal donations of lands are made to all who will settle upon them previous to the first day with a reputation worth sustaining has ever reof December, 1853. EPORTED FOR THE LOUISVILLE DAILY DEMOCRAT THIRTY-SECOND CONGRESS.

[First Session ...]

Washington, Jan. 20. SENATE .- The chair laid before the Senate a message from the President, including a report of the Secretary of State, calling the attention of Congress to the payment) of the next instalment of the Mexican indemnity. A number of petitions and reports were pre-

sented. Mr. Welch, from the committee on public

ands, reported a bill granting land for railroads in the Western States. Mr. Underwood introduced a bill granting land for a railroad opposite Louisville to the Missis-

sippi river, opposite St. Louis. Mr. Shields introduced a bill to reimburse N. York for the expense incurred in raising volunteers.

Mr. Norris offered a resolution anthorizing the secretary of the Senate to audit and pay the account of John C. Rives, for publishing the Congressional debates: laid over.

Mr. Dawson finally withdrew his amendment o the same, and the resolution passed. Messrs. Seward and Cass each laid on the taole amendments to Mr. Clarke's resolutions rel-

ative to the foreign policy of the United States; which were ordered to be printed. They assert the right to interfere, and that the United States cannot look with indfference apon the interference of despotic powers to suppress the struggles for liberty in any nation. THE GREAT MENTUCKY BEMEDY DR. JOHN BULL'S

REGULAR LOUISVILLE AND ST. LOUIS SARSAPARILLA SARSAPARILLA

IT is put up in full quart bottles, and contains the strength of six times as much pure Honduras Sarsa parilla as any similar preparation in America. Price one dollar per bottle, or six bottles for five dollars.

It has been a well established fact for years past, tha Sarsaparilla, when pure and properly prepared, was the only true panacea for all diseases originating from an impure state of the blood, the use of mercury intoxicating drinks, evil habits in youth, barrenness, &c. We boldly assert tha JOHN BULL'S FLUID EXTRACT OF SARSAPARILLA is the only preparation before the public that is prepared on strictly scientific principles, and of uniform strength. The Sarsaparilla is purchased without regard to price, and every pound, before being used, is subject to the strictest chemical tests, and its senuineness ascertained before being used.

Buil's Sarsaparilla also contains the virtues of several other valuable medical roots, together forming the best compound, and producing the greatest curative agentin the known world! This medicine, when used according to directions, will cure without fail—

Scrofula or King's Evil, Cancers, Tumors, Bruptions of the Skin, Erysipelas, Chronic Sore Eyes, Ringworm or Tetters, Scald Head, Rheumat'sm, Pains in the Bones or Joints, old Sores and Uicers, Swelling of the Glands, Syphilis, Dyspepsia, Salt Rheum, Diseases of the Kidneys, Loss of Appetite, Diseases arising from the use of Mercury, Pain in the Side and Shoulders, General Debility, Dropsy, Lumbago, Jaundice,

Costiveness, Sore Throat, Bronchitis, Coughs, Colds, Weakness of the Chest, Pulmonary Affections, and all other diseases tending to produce Consumption, Liver Complaint, Female Irregularities and Complaints, Night Sweats, Exposure or Imprudence in Life, Chronic Constitutional Diseases; and is a spring and summer drink, and general tonic for the system, and a gentle and pleasant purgative, far superior to Biue Lick or Congress Water, Salts, or SeidlitzPowders.

arising from cerious teeth, and renders the gums fitm and healthy. All dentists agree that charcoal is an excellent dentrifice; but many persons have been fearful of using it on account of the hard and grifty substances which here generally mixed with it, and which are calculated to injure the enamel of the teeth.

Julea Hauel's Purified Charcoal Tooth Paste is entirely free from this objection, as the coal from which it is prepared is formed from poplar wood burnt expression for the purpose in an iron cylinder. The other ingredients are only such as are necessary to prepare the charcoal in this form, and in themselves me entirely innocuous. The Purified Charcoal Tooth Paste with impart the most beautiful and brilliant whiteness to the teeth, keep the gums bear by, and make the breath pure and sweet.

On the Resolution of Mr. Seward, of welcome to Kossuth; delivered in the W. S. Senate, Thursday, Dec. 11., 1851. Continued.

I suppose it would be a much more offensive proceeding to a persecuting government to have these subjects of its wrath protected and maintained than would be a mere expression of sympathy in their misfortunes.

Mr. President, there is a great principle, which no one can deny, and that is, that in the eternal contests of other countries, where one portion of a comunity is endeavoring to throw off an iron yoke, the other Powers of the earth have no right to interfere. England, and her continental allies, violated this salutary prohibition, in the invasion of France, towards the commencement of revolution, and signally was this breach of duty rebuked and punished by triumphant ar-mies, who carried the tri-colored flag from Lisbon to Moscow. As far as I understand, this is the very ground taken by Kossuth in his various answers and addresses, conceived, I must say, in the genuine spirit of eloquence. He is willing to abide the issue of the efforts of the Hungarians, if they are left to contend with the power of Austria alone. It may be, that in the many and extemporaneous answers he is compelled to make, he has not always laid down the pricise limitations; but the general purport is sufficiently manifest, and, sir, I fully agree with him it this view. Russia and Austria have violated this great salutary priciple. The latter, hard-pressed by the gallant Hun-garians, invoked the aid of the Autocrat, and the Cossacks poured over the frontiers. and prostrated in the dust the banner of freedom. Now, what may other nations rightfully do under such circumstances? The law of nations is the bend, which unites all civilized communities together; which protects, not always, unfortunately, but often, the weak against the strongthe arbiter which substitutes reason for force. Every country under heaven has an interest in its immunity and preserva-

If, then, one of its great principles is violated, what may other nations rightfully do? Why, sir, the answer is easy and clear. If any nation believes its own interests is so much affected by this violation and that it is so grave in its character as to justify it, it may resort to that remedy at its descretion. It has the moral right to appeal to that final arbiter in the disputes among independent Powers. Whether it will take that serious step is a question for its own decision, depending upon its view of its own interest and policy. But there are other methods, than war,

by which the feelings and disapprobation of the impartial Governments of the world public and solemn protest against the proceeding, placing upon historic record their dissapproval of this conduct, and avowing their determination never to assent to the consequences of such acts, nor to the doctrines they establish. Or they may remonstrate, in a diplomatic form, through their own representative, in terms more or less severe and decided, as the gravity of the circumstances and the interests involved may render proper; or the whole subject may be discussed, and the course condemned in the legislative bodies of other Governments, as is done in France, in England, and in the United States. The public opinion of the world is a powerful engine in its social and political systems, and though not always strong enough to may be expressed. They may make a and though not always strong enough to prevent injustice, it is never without a salutary effect. It cannot be wholly shut out from the most despotic countries, and it has often made the tyrant tremble on his throne. And the halls of free legislation are the very places, whence this warning voice may issue to perform its work. It seems to remonstrate against infractions of the law of notions. infractions of the law of nations-against this high-handed violation, for example, by Russia and Austria -- that we must be prepared to support our declaration by war—that, in truth, the act itself pledges WHOLESALE GROCERS, & DEALERS us to war. Why, sir, no error can be greater or more mischievous. The protests and remonstrances of nation, are everyday occurrences in the diplomatic history of the world. England put upon record her protest against the occupation

She did not think the circumstances called for war.

And within the current year, it is known Gold We that both France and England made representations against the demand of Russia and Austria, that the Sultan should deliver up to their tender mercies the unfortunate Hungarian exiles. What the protesting States would have done, had this insolent demand succeeded, we do not know. It did not necssarily follow, that they would go to war. But it would be time ill spent to multiply instances in illustration of this doctrine. Modern history is full of them, and they are familiar to all. I repeat, that we shall do, in cases where we find it necessary to pursue this mode of expressing our disapprobation, is a mere policy; and if we do nothing but put ourselves right by this process of a disapproval, we compromit neither our dignity nor our honor. We put our views upon record, and then we are free to act at any time thereafter, as we please.

The success which Dr. V. has met with by hispecullar mode of treating all kinds of diseases, has been astonishing—curing the most desperate cases after repeated allures of the most eminent practitioners in the country. As a proof of the Doctor's merits untried, he will suddertake the cure of all patients without charge, executing the cost of the medicine, requiring no fee upth after the restoration of their health, and the full satisfaction to the patient's mind of the benefit conferred.—This is the principle upon which Dr. Vanderslice Isgov are din all cases with his practice.

Persons efficied with Bullions, &c., &c., &c., can have the mentirely removed and permanently cured without pain. Thousends of persons have been cured by Dr. V., and can bear testimony to his wonderful success.

Females suffering with irregularities, nervousness, tebility. &c., can be permanently cured by the treat-

pain. Thousands of persons have been cured by Dr. V., and can bear test imony to his wonderful success. Females suffering with irregularities, nervousness, debility, &c., can be permanently cured by the treatment of Dr. Vanderslice. Ladies, let no scruples nor false delicacy hinder you from applying in proper person, when you can be so readily restored to health. Diseases of a peculiar character are guaranteed to be removed in a few days, radically, without offensive or deleterious medicine. Dr. V. being eminently successful in this branch of practice, patients would save much time and money, to say nothing of anxiety of mind, by giving him an early call. He warrants to all, no matter how severe and long standing it may have been, a thorough cure, or no pay. Invalidaty our true interest is to apply to Dr. V. at once, who has the proper medicines to meet all cases.

Dr Vanderslice begsleave to say further, that he has with him remedies prepared in a scientific and skilfur manner under his own eye, to cure each and all diseases in which his attention has been so long directed, with full directions how to use them; therefore invalids from any sections of the country, by addressing a letter, posting a fee, can have advice and medicine sent them.

It is often asked, how can a medicine so simple in its nature perform such wonderful cures? We answer, this Tincure is composed entirely of vegetables from nature's garden, which give strength and tone to the stomach—creating a healthy appetite, which the patient is at liberty to indulge, then it is life finds its way to every member throughout the entire system. The liver then, whose functions are vital and of every importance to the system, commences its healthy operations, which are: first, to clean itself; next, it opens the pores, throws off all impurity of blood and tood, clears off that gloom and wretched feeling which ever attends a morbid liver. The boweis now become regulated, and healthy action takes place—every nerve receiving its wonted life; the whole system is invigorated, rendering life truly desire ble and comfortable.
